

MEYERCRUDEN

CIVIL | STRUCTURAL | GEOTECH

Civil Designer –Wanaka

Our company

We are a multi-disciplinary consultancy (geotechnical, civil and structural) based in Central Otago. We have offices in Wanaka and Cromwell.

The position

Due to an increase in workload and requests from clients to expand our scope of services into broader land development we are looking for a civil designer.

The position involves:

- Site investigations;
- Civil design and project management of earthworks, roading and three waters infrastructure;
- Preparation of contract documents;
- Procurement;
- Liaison with council engineering teams;
- Construction monitoring and contract administration.

We work on a wide range of projects across our business so, rest assured, there will be plenty of variety in your workflow. We have a very flat structure and growth opportunities in this role will be significant.

The ideal candidate will bring the following skills and attributes:

- The ability to work in a small collaborative team environment;
- A positive attitude, excellent communication, and organisational skills;
- At least 2 years New Zealand based experience;
- Experience with 12D or similar civil design software;
- Attention to detail;
- Cadastral survey skills are welcomed as the role can be expanded to include Cadastral work if desirable.

Minimum qualifications required

- NZ Diploma in Civil Engineering (or higher), or;
- NZ Diploma (or higher) in Surveying, and/or;
- Degree and Chartered Engineer and Registered Surveyor candidates will also be considered with the role expanded to suit qualifications and experience.

What we offer

- Full time position (with some flexibility);
- Training and development opportunities;
- CPEng guidance and support (structural, civil and geotechnical);
- Competitive remuneration package;
- Annual salary reviews;
- Regular performance feedback;
- Annual bonus scheme;
- \$500 annual health wellbeing payment;
- Possible relocation contribution allowance.

How to apply

If this position sounds suitable and you are looking to join a company that will recognise your experience and support your development, then please provide your covering letter and CV by email to recruitment@mcengineering.co.nz.

Further information

Applicants for this position should have NZ residency or a valid NZ work visa with at least 2 years remaining. You must have clear written and spoken English and hold a full NZ driver's license.

APPLICATIONS CLOSE NOVEMBER 8TH, 2021.

For further information please call Katie Lindsay on 03 445 0670 ext. 103 or visit www.mcengineering.co.nz.
